The Outback is the vast, remote interior of Australia. "The Outback" is more remote than those areas named "the bush" which is any location outside the main urban areas. While often envisaged as being arid, the Outback regions extend from the northern to southern Australian coastlines, and encompass a number of climatic zones; including tropical and monsoonal climates in northern areas, arid ...

Once you've downloaded your map, you can then find your location, record GPS tracks, add placemarks, and find places. I've used them to navigate completely off road -and I mean OFF TRACK- cross country within remote parts of the outback whilst undertaking cultural and heritage clearances for mining exploration companies.

Although the word â€“Oodnadattaâ€™ sounds remote, tough and dangerous, the Track is actually one of the easiest outback tracks to drive. In our opinion, itâ€™s the best introduction to remote area driving (and bush camping) in the entire outback â€“ which is one BIG reason why you should go.. Most of the time, the track is a very good, well maintained gravel road (except after rain).
