The Plague (French: La Peste) is a novel by Albert Camus, published in 1947, that tells the story of a plague sweeping the French Algerian city of Oran. It asks a number of questions relating to the nature of destiny and the human condition. The characters in the book, ranging from doctors to vacationers to fugitives, all help to show the effects the plague has on a populace.

### **The Plague - Wikipedia**

The Great Plague, lasting from 1665 to 1666, was the last major epidemic of the bubonic plague to occur in England. It happened within the centuries-long time period of the Second Pandemic, an extended period of intermittent bubonic plague epidemics which originated in China in 1331, the first year of the Black Death, an outbreak which included other forms such as pneumonic plague, and lasted ...

### **Great Plague of London - Wikipedia**

Plague was first introduced into the United States in 1900, by rats "infested steamships that had sailed from affected areas, mostly from Asia. Epidemics occurred in port cities. The last urban plague epidemic in the United States occurred in Los Angeles from 1924 through 1925. Plague then spread ...
