A forensic autopsy is used to determine the cause and manner of death. Forensic science involves the application of the sciences to answer questions of interest to the legal system.. Medical examiners attempt to determine the time of death, the exact cause of death, and what, if anything, preceded the death, such as a struggle.

Autopsy - Wikipedia

A coroner may conduct or order an inquest into the manner or cause of death, and investigate or confirm the identity of an unknown person who has been found dead within the coroner's jurisdiction.. In medieval times, English coroners were Crown officials who held financial powers and conducted some judicial investigations in order to counterbalance the power of sheriffs.
