ethics in Professional Nursing Practice

Medical ethics is a system of moral principles that apply values to the practice of clinical medicine and in scientific research. Medical ethics is based on a set of values that professionals can refer to in the case of any confusion or conflict. These values include the respect for autonomy, non-maleficence, beneficence, and justice. Such tenets may allow doctors, care providers, and families ...

Communication (from Latin *communicare*, meaning "to share") is the act of conveying meanings from one entity or group to another through the use of mutually understood signs, symbols, and semiotic rules.. The main steps inherent to all communication are:. The formation of communicative motivation or reason.;; Message composition (further internal or technical elaboration on what exactly to express).
