Limit. The term limit comes about relative to a number of topics from several different branches of mathematics. A sequence of elements in a topological space is said to have limit provided that for each neighborhood of  $x$ , there exists a natural number  $N$  so that for all  $n > N$ . This very general definition can be specialized in the event that  $X$  is a metric space, whence one says that a sequence in  $X$  has ...

Probability is the branch of mathematics that studies the possible outcomes of given events together with the outcomes' relative likelihoods and distributions. In common usage, the word "probability" is used to mean the chance that a particular event (or set of events) will occur expressed on a linear scale from 0 (impossibility) to 1 (certainty), also expressed as a percentage between 0 and 100%.
