### **Problems And Social Adjustment In Old Age**

Dhingra and Colleagues (2005) assert that adjustment is a continuous process through which one changes to be in proper adjustment with his environment, others, and himself. The basic objective to adjustment is to set a balance between one's wishes and social expectations that affects all aspects of one's life.

### **Self-Concept, Social Adjustment and Academic Achievement**

General social skills are moderately and positively correlated with interpersonal aspects of social adjustment, with correlations ranging from .19 with group membership, to .25 with the classroom social behavior scale and with seeing friends outside of groups, to .37 for getting along with teachers and students.

### **5. The Social Adjustment of Elementary and Middle School**

At the extreme, poor social adjustment can result in self- injury or suicide, the third leading cause of death among adolescents (Centers for Disease Control and Prevention, 2002). Many youth with disabilities encounter additional hurdles that complicate the already difficult time of adolescent transition.
