Social psychology is the scientific study of how people's thoughts, feelings and behaviors are influenced by the actual, imagined or implied presence of others. In this definition, scientific refers to the empirical investigation using the scientific method. The terms thoughts, feelings and behavior refer to psychological variables that can be measured in humans.

Social psychology - Wikipedia

Evolutionary psychology is a theoretical approach in the social and natural sciences that examines psychological structure from a modern evolutionary perspective. It seeks to identify which human psychological traits are evolved adaptations " that is, the functional products of natural selection or sexual selection in human evolution. Adaptationist thinking about physiological mechanisms ...

But this whole drama leaves the unsettling question for others: "She could afford the best of everything and yet she died. What possible chance do I have?" This is really the wrong question. Jackie was lured into taking expensive orthodox treatment, under the false belief that it was the best available to her.
