R Developer Page This site is intended as an intermediate repository for more or less finalized ideas and plans for the R statistical system. Most parts of the site are open to the public, and we welcome discussions on the ideas, but please do not take them for more than that, in particular there is no commitment to actually carry out the plans in finite time unless expressedly stated.

R Developer Page

SMART is a mnemonic/acronym, giving criteria to guide in the setting of objectives, for example in project management, employee-performance management and personal development. The letters S and M generally mean specific and measurable. Possibly the most common version has the remaining letters referring to achievable, relevant and time-bound. However, the term's inventor had a slightly different ...
